

SuRo Capital Corp. Reports Second Quarter 2024 Financial Results

August 7, 2024

Net Asset Value of \$6.94 Per Share as of June 30, 2024

Executed Purchase Agreement for 6.50% Convertible Notes Due 2029

Board Approved Note Repurchase Program Up To \$35.0 Million

NEW YORK, Aug. 07, 2024 (GLOBE NEWSWIRE) -- [SuRo Capital Corp.](#) (“**SuRo Capital**”, the “**Company**”, “**we**”, “**us**”, and “**our**”) (Nasdaq: **SSSS**) today announced its financial results for the quarter ended June 30, 2024. Net assets totaled approximately \$162.3 million, or \$6.94 per share, at June 30, 2024, as compared to \$7.17 per share at March 31, 2024 and \$7.35 per share at June 30, 2023.

“The second quarter was broadly positive for the U.S. economy and equity markets as investors became increasingly confident in the prospect of rate cuts later in the year. However, as of late last week, the market has become volatile due to a confluence of domestic and global factors leading to a sharp change in investor sentiment. Despite these fluctuations in the broader public markets, in the second quarter, private technology companies continued to see increasing interest from investors,” said Mark Klein, Chairman and Chief Executive Officer of SuRo Capital.

Mr. Klein continued, “As we have previously mentioned, with nearly \$55.0 million in investable capital, we remain incredibly enthusiastic about our investment pipeline. During the second quarter, we completed a \$10.0 million investment in Canva, Inc., a leading design software and collaboration platform with over 170 million monthly users, and a \$15.0 million investment in CW Opportunity 2 LP, an SPV invested in CoreWeave, Inc., an AI cloud computing provider offering a suite of NVIDIA GPUs on top of its fast and flexible infrastructure. We believe that these investments strengthen our already well-positioned existing portfolio for the re-opening of the IPO window.”

“We are pleased to announce our Board of Directors has approved a repurchase program of up to \$35.0 million for our 6.00% Notes due 2026. Additionally, the Board approved up to \$75.0 million of private 6.50% Convertible Notes due 2029, with an initial issuance of up to \$25.0 million. We believe the refinancing of a portion of our current debt to a longer-dated convertible instrument with favorable terms strengthens our balance sheet,” Mr. Klein continued.

“As we have consistently demonstrated, SuRo Capital is committed to initiatives that enhance shareholder value, and we believe the market is currently undervaluing our portfolio. Given the discount our stock has traded at compared to net asset value per share, we believe our recently completed Modified Dutch Auction Tender Offer was an efficient and accretive deployment of capital,” concluded Mr. Klein.

Total return based on net asset value is based upon the change in net asset value per share between the opening and ending net asset values per share in the period, adjusted for dividends and equity issuances.

(3) Financial highlights for periods of less than one year are annualized and the ratios of operating expenses to average net assets and net investment loss to average net assets are adjusted accordingly. Because the ratios are calculated for the Company's common stock taken as a whole, an individual investor's ratios may vary from these ratios.
